SUMMARY

Aspiring Web Developer skilled in MERN stack and responsive UI/UX design. Experienced in building full-stack projects, optimizing applications, and improving user engagement with modern front-end design practices. Strong in problem-solving and teamwork, seeking opportunities in full-stack development.

EDUCATION

B.Tech – Electronics & Communication Engineering
Gandhi Institute for Technology, BPUT | 2025 | CGPA: 7.63/10

Intermediate (CHSE)
Alfa Best College of Science & Technology | 2021 | 59.16%

Matriculation (HSE)
Kusunpur High School | 2019 | 54.16%

KEY SKILLS

Frontend: HTML5, CSS3, Tailwind, Bootstrap, JavaScript (ES6+), React.js

Backend: Node.js, Express.js | **Database:** MongoDB

Tools & Platforms: Git, Postman, Vercel, Render, MS Office

INTERNSHIPS AND CERTIFICATIONS

1.Full Stack Web Development Certification | Udemy

- Hands-on training in MERN stack, REST APIs, authentication, and CRUD operations.

2.Telecom Internship | BSNL

- Gained exposure to GSM, LTE, Optical Fiber Communication, FTTH, and network infrastructure.

PROJECTS

1.Real-Time Weather App | HTML, CSS, JavaScript

- Built a responsive weather app using OpenWeatherMap API.
- Implemented real-time display of temperature, humidity, wind speed, and icons. 🔗 **[Live Demo](#)**

2.Bike Rental App | React.js, CSS, Motion

- Developed a rental application to browse, view, and book bikes online.
- Built reusable React components for cards, booking forms, and navigation.
- Integrated supplier login panel with LocalStorage for storing bike data. 🔗 **[Live Demo](#)**

3.Portfolio Website | React.js, Tailwind, Motion

- Designed and developed a personal portfolio website.
- Added smooth animations, resume download option, and project links.
- Ensured fast load time and responsive design across devices. 🔗 **[Live Demo](#)**

4. Full-Stack Chat Application | MERN Stack, Socket.IO

- Built a real-time chat application with user authentication (JWT) and secure login/signup system.
- Implemented Socket.IO for instant messaging with typing indicators and message persistence using MongoDB.
- Designed a responsive React + TailwindCSS UI with chat rooms, user profiles, and toast notifications.
- Developed a Node.js, Express API for authentication, message handling, and database operations. 🔗 **[Live Demo](#)**

STRENGTHS

- Versatile
- Committed and diligent | Fast Learner
